

TAK Capabilities

Team Awareness Kit (TAK)

Also known as Tactical Assault Kit in the DOD.

We deliver turnkey TAK solutions, purpose-built to give your organization real-time situational awareness at any scale. With over a decade of experience across the public sector and private industry, we provide an end-to-end service—from initial concept to full deployment and sustainment. Our team collaborates with you to design and architect a system that meets your mission, procures all necessary components, and handles installation, integration, and training. We don't just deploy TAK—we build the complete infrastructure that makes it work while providing the ability to scale
